

Autopsy Tables

Docking Station

Applications

This system is ideal for normal post mortem procedures but not procedures for containment of aerosols and smells. It is a compact system where space is a constraint. The limitations are no extraction at the autopsy table and no height elevation of the autopsy or dissection worktop. Larger facilities often combine docking stations and island style tables with the docking stations.

Design Features

The autopsy docking trolley has a large elevating worktop. The trolley automatically locates itself to the dissection table with the worktop tray protruding over the sink for drainage purposes. A large sink with a peripheral wash-down system to remove solids to the waste has a small instrument basket on the one side with a perforated tray above. On the other side, or on both in the case of a double docking station, is the dissection area. This includes a sloping sump to the sink with rounded corners and wash-down feature. Removable perforated dissection trays are placed above the sump. The front fascia includes a drawer and a hot & cold, handheld trigger action spray on a flexible connection with hose brackets. Electrical on/off switch for lighting and disposer and plug point are mounted on fascia with elbow action faucet for the wash-down features. The splash back includes further storage facilities, swivel action hot & cold goose neck outlet to sink and other plumbing accessories. The extraction grille is situated above the dissection trays. A fluorescent light is housed above providing sufficient light for dissection cutting procedures.

Accessories

- Eye wash feature
- Hydro Aspirator
- Soap basket
- Video camera arm
- Storage compartment
- Additional extraction grille
- Utility arm for trigger action spray

Technical Details Wall Mounted Dissection Table with Docking Trolley

Model	Description	Work area size H x W x D	Unit size H x W x D	Exhaust air volume (m ³ /hr)
L22DDT	LHS or RHS 2 dissection tray	600 x 1150 x 600	850 x 2200 x 700	3000
L28DDT	LHS or RHS 3 dissection tray	600 x 1750 x 600	850 x 2800 x 800	4000
L32DDT	Double Docking Station	900 x 2300 x 600	850 x 3200 x 950	6000
L22ATT	Trolley	1050 x 1900 x 700	1100 x 2200 x 930	
L22DTD	Deck Mounted dissection table	330 x 635 x 500	330 x 735 x 600	
L22ITD	Deck Mounted instrument table	100 x 685 x 80	100 x 720 x 115	
L22ARD	Deck Mounted Arm Rest		100 x 800 x 100	
L22HRD	Deck Mounted Head Rest		100 x 800 x 100	
L22OTD	Deck Mounted Organ Table	400 x 745 x 300	400 x 835 x 385	
L22ABT	Body Tray		2200 x 750 x 70
